

Reception Newsletter Friday 15th May

Dear Parents/Guardians

This week we had a very exciting Science Day. We had a brilliant assembly called "Spin, Boom, Bang" where we found out about forces and gases. We also had a fabulous workshop from MAD Science (a company who specialise in exciting science events in schools). In our workshop we learnt how to make gooey slime and we also learnt some new scientific words. The day was also full of exciting science investigations where we explored colour. We made our own colourful tie dye bandanas which helped to investigate colour mixing. We also made some Wriggling, Giggling Jelly and explored the different colours we could make. We learnt some new songs about colour and made colourful magic potions in our mud kitchen.

This week have enjoyed making our own simple clown costumes and writing instructions about it.

During our number work we have been learning about subtraction by counting back.

Next week we are going to write our next Pie Corbett story called "Going for a Song."

This week's Star Writer:

RD: Eva Anderson RM: Jack McMorn

Thank you for all the magical moments, we loved hearing about them and the children were so proud sharing them. Keep them coming in!

Have a wonderful weekend!
