

Nursery Newsletter Friday 1st April

Children have really enjoyed learning about Bears this half term. One of our favourite Bear stories has been 'Whatever Next!' by Jill Murphy. We heard children talking about the characters in their play. We also talked about the things that the children would take if they went on a picnic to the moon. We decided to go on our own picnic just like Baby Bear in the story. It was lots of fun!

Thank you for coming to the Parents Meetings on Wednesday. We really enjoyed sharing children's learning journeys, achievements and next steps with you.

Children watched the frog spawn in the tank really closely and were delighted to see that it has changed into tadpoles. They are growing bigger and will soon be big enough to transfer into the pond. After the holidays our topic will be 'Down on the farm'. We are looking forward to receiving fertilised eggs from the farm on April 25th, which we will look after until they hatch into chicks. Learning about growth really encourages children to look closely and comment upon the changes they see.

Please find attached a holiday diary for you to help your child fill in with holiday news. You may want to add photographs or your child might like to draw what they have done. We look forward to sharing these after the break.

Have a lovely two week break and we will see you on Monday 18th April.
