

# Smile Month!

The children enjoyed a visit from the dental hygienist and trainee dentists who talked about the importance of looking after our teeth.

The children learnt about the importance of and how to maintain personal hygiene when looking after our mouth.

Do you know how long you should brush your teeth for?

**For two minutes!**

All the children received a gift from the team, a toothbrush! Now we know how to correctly brush our teeth let's get busy with it!

**A big thank you to the team from Lister Infants!**
