TEDDY BEAR HOSPITAL

Dear Parent/Carer

On Thursday 22nd October the **Teddy Bear Hospital** will be visiting the school to work with Y1 and Y2 children.

This is public health project run by medical students from **Liverpool University**. The Teddy Bear Hospital has the intention of reducing children's fears of doctors and hospitals. Children will be asked to bring in their 'sick' teddy or doll to school and act as their parent. The child will explain why their teddy is sick to a teddy doctor and will watch their teddy being examined.

We hope you agree that this sounds like an excellent project that will not only give out messages about staying healthy but help children with any anxieties if they have to visit hospital.

Yours faithfully

J. Davies
Headteacher
