

The Great Fire of London Workshops

We time travelled with Daisy to 1666 and we made a fire chain to pass the water from the River Thames to try and put the fire out. We met Samuel Pepys and we learnt how his diary helps us know about the fire.

We had a visit from the plague doctor who taught us about how the great fire stopped the plague by killing all the rats.

We loved dressing up in costume and learning the square dance like they did in 1666!
