

Alison from Acorn Farm came to school to deliver our fertilised eggs and incubator.

Mrs Johnston carefully placed the eggs in the incubator.

We were lucky to watch one of our chicks hatching out of the egg and videoed it on the iPad.

Everyday we talked to them and made sure they had food and water.

We named the chicks Scramble, Sunshine, Barney and Libby.

We learnt about a lifecycle of a chick.

At the end of the week the chicks had to return to the Farm to their Mummy. We waved goodbye.
