

Summer

Think!

What can you hear, smell, taste, feel and see?

Summer feels like a cosy, warm blanket on my back.

Summer sounds happy with children playing and singing outside,

Summer tastes like ice-cream sundaes and barbeque sausages in buns,

Summer looks bright and colourful with everyone wearing bright clothes and big smiles,

In summer I see children playing, birds relaxing, flowers and trees growing.

In summer I see people relaxing and taking things slowly,

In summer I love to feel the sun on my skin and when it shines through my window it makes my heart sing.

I love summer because the parks are green and full of fun.
