

Dear Parents/Carers

Education City Free Access

Lister Infants have been given free access to Education City, which provides children with fun educational games in the form of online activities. Currently, all children have access to this fantastic resource during school hours which includes curriculum links to maths, literacy and science modules.

Pupils can access EducationCity away from school, allowing them to continue their learning in the evenings, weekends and over the holidays. It's perfect for the Christmas holiday which is coming up really soon! All activities and games are aimed at specific age and ability ranges.

Please click the link <https://go.educationcity.com> and enter the school's unique username and password. Please also select 'England' as the country.
