

## This Week.....

We have really enjoyed Science week and learning all about growth. We had so much fun measuring our height and we can't wait to come back to this in the summer term to see how much we will have grown. We also planted cress heads and are going to be observing the changes as they grow. We wrote instructions for how to plant cress heads too!

In our phonics we have been learning how to chunk longer words. We have been reading words like dinner, pattern and rubbish. We are so impressed with the children's reading.

In maths we have been learning all about the number 6. We have been making 6 with different objects, drawing 6 and ordering up to 6.

In PE this week we enjoyed learning how to jump from 2 foot to 2 foot and 2 foot to 1 foot. We added this a sequence with travelling, rolling and our star jumps.

## Reception Newsletter 11<sup>th</sup> March 2022

### This Week's Book

## Forensic Scientists

We really enjoyed our forensic workshop in celebration of National Science Week 2022. We worked together to solve the clues from the case and looked at different evidence.

## Star of the Week

Congratulations to our Star of the Week!

**Bluebells:** Fran Edu Banos

**Daffodils:** David Banchev

Well done!

## Making Cereal

The children really enjoyed following the steps to make their own toast so we are going to follow the steps to serve our own breakfast cereal this half term. Please make sure you have filled in the consent form on our school app if you haven't done already.

We will continue to do this each Monday until half term.

We love to see and hear about your child's achievements at home. We would love if you would share these with us on Seesaw.

We would love to see their reading, writing, maths, creative and physical skills at home. Have they learnt to ride a 2 wheeler bike? Have they learnt to make their bed? Can they tie their shoe laces/ fasten buttons/buckles? Let us know!
