

National Tree Week

Lister Infants helped plant some 500 trees in Newsham Park with Councillor Nick Small and Paul Nolan, Mersey Forest Directors.

The team worked together to work towards the aim to plant 5,000 new trees by 2019.

Newsham Park was one of the four city parks identified. The others were Walton Hall, Otterspool and Alt Meadows.

Our green fingered children have helped launch a city-wide tree planting programme.

The project was started by Olivia Newton-John and Jon Dee, the original founders of National Tree Day. Their aim is to get millions of children planting millions of trees.

Well done Lister for helping work towards this goal.
