Tick tock, tick tock, tick tock, tick  
tock

### Story of the Week

We LOVED listening and joining in with our story of the week 'What's in the Witch's Kitchen?' There were lots of laughs and surprises on each page!

Our activities were based around Halloween, with slime and potions being a favourite. There were some really good drawings of potions.

We have also been mark making in a range of contexts using pens attached to cars, painting on a large scale and with cotton buds and water.

It has been a very busy week don't forget to check our Twitter page to see our fun learning experiences!

### Listening Moment

Over the weekend encourage your child to listen to sounds they hear around them. This could be in the house or the outdoor environment. A listening moment helps children improve their attention. We enjoy listening walks in Nursery and the garden.

Useful tips...

- Talk to your child about how to listen very carefully
- Stop often, and stop in different places too.
- Notice sounds, both near and far away.

We would love to know the sounds you hear by uploading videos or photographs on seesaw.

Have fun!

### Magical Moment

We would like you to share your child's learning with us. We would love to hear about their 'Magical Moments' at home. Some examples could be trying to get dressed by themselves, putting on their coat, learning to ride a balance bike/trike or remembering to use their manners. Let us know!
