FREE DENTAL SCREENING

We are the **'Smile squad'**. We aim to help you and your children with their oral health, and guide you in the right direction. Ultimately, we want children free from pain and discomfort with access to information, tools and education about their oral health.

What can we do when we visit? A Smile Squad team member will look in your child's mouth. This 'look in the mouth' will not replace your child's usual check-up and you will be informed if your child needs further assessment. We may be able to help if you do not have a Dentist. Contact and interaction with the Smile squad team can help to reduce children's dental anxiety!

Why are we doing this? Healthy teeth are important for your child's well-being and development. Tooth decay and sore teeth are preventable. We understand access to a dentist may be difficult and we would like to help identify children who need treatment.

Arbor App

Just a reminder that we have sent a link via email to log on to our new Arbor app. We are still using Parentapp alongside Arbor so please do not delete this app until we are ready to fully roll out Arbor. It is most important that everybody has the Arbor app as in the near future we will be using the payment function (and much more) which is now the technology that most schools have adopted. If you haven't received the link or your email address is incorrect then please let the office know. Thank you for your continued co-operation.
